# HOLISTIC THINKING – FOR TOMORROW'S BUILDING

**ALLPLAN IS A LEADING EUROPEAN VENDOR OF  
OPEN SOLUTIONS FOR BIM (BUILDING INFORMATION  
MODELING).**

For more than 50 years, we have supported the AECOM industry with a pioneering software portfolio and play a key role in promoting the digitalization of the building industry: innovative, geared to your requirements – and with best quality „made in Germany“.

Our solutions are being used in 20 languages and 41 countries by over 190,000 users. Around 400 employees in eight countries work with a passion on our continued success. A strong subsidiary of the Nemetschek Group, we tap into the comprehensive competence and experience of a global leading group of construction software specialists.

„Our integrative software solutions make a significant contribution in shaping the planning, building and managing of tomorrow's buildings.

As a central hub, we bring together all building stakeholders and productively link them with one another.

Our specific goal: To support our customers in realizing better buildings for a better life.“

Michael Koid, Managing Director ALLPLAN GmbH

## FIT FOR THE CHANGE IN THE BUILDING INDUSTRY

## HOLISTIC THINKING – FOR EVERYONE INVOLVED IN THE BUILDING PROJECT

Architects, engineers, facility managers, building owners and building contractors: Our seamlessly integrated solutions put the AECOM industry in the position to cooperate more accurately, flexibly and efficiently than ever.

### **ALLPLAN MAKES YOU FIT FOR THE CHANGE IN THE BUILDING INDUSTRY:**

- > With a multitude of innovations for more productivity and easier use
- > With a portfolio standing for quality, stability and functionality – that you can always depend on
- > With open and flexible design solutions that optimally fulfill any individual requirement
- > With comprehensive service offers enabling you to maximize on our solution portfolio's capabilities

## HOLISTIC THINKING – FOR THE LIFECYCLE OF A BUILDING

### **OUR COMPREHENSIVE SOLUTION PORTFOLIO COVERS ALL PHASES IN A BUILDING'S LIFECYCLE.**

With ALLPLAN, integrated, collaborative and transparent planning, building and managing is reality.

#### **STEERING, LINKING, CONTROLLING**

bim+ is our powerful tool for cross-system and interdisciplinary cooperation in BIM projects. The Solibri Model Checker is the leading solution for in-depth quality control of BIM models.

#### **PLANNING**

With Allplan Architecture and Allplan Engineering, we offer high performance solutions for architects and engineers. These are supplemented by the Nemetschek Group's solutions for

visualization (CINEMA 4D), cost management (NEVARIS), technical building equipment (DDS-CAD), prefabricated component design (PLANBAR), structural analysis (SCIA Engineer) and paperless workflows (Bluebeam Revu).

#### **BUILDING**

In the building phase, the process management platform Sablono ensures precise activity recording and project documentation.

#### **MANAGING**

Upon completion of the building, Allplan Allfa is our reliable tool for sustainable, browser-based facility management.
